ABOUT RBN

RBN is a Paris-based DJ and producer making emotional, melodic house. He started on piano in primary school and began producing electronic music at 14. A break to focus on his studies led him to poetry and house music, the turning point that shaped his sound.

Influenced by Keinemusik, Rampa and &ME, he builds sets that move a dancefloor without losing their feeling. His first single, "Make Me Feel" (feat. Jaina), was picked up by Radio FG and Europe 2, landed on Apple Music editorial playlists and has passed 267,000 streams.

Before focusing on his own project, he co-founded Aldosia, a Paris DJ booking and events agency, where he ran booking and business development for a roster of house DJs.
